NEW YACHTS

Southern Wind 96/105

One of the most innovative growth areas in yacht design and construction is the Southern Wind 96/105. This yacht, designed by the renowned Southern Wind Design, offers a unique and innovative design that sets it apart from its competitors. The Southern Wind 96/105 is a perfect example of how modern yacht design is evolving to meet the needs of today’s sailors.

The Southern Wind 96/105 is a true bluewater cruiser that offers exceptional performance and comfort. It is designed to handle the most severe conditions, making it an ideal choice for long-distance cruising. The yacht is equipped with the latest technology, including solar panels and wind generators, ensuring that it can operate independently for extended periods.

The Southern Wind 96/105 is built with the highest quality materials, ensuring durability and longevity. The interior is designed to provide maximum comfort, with spacious cabins and a well-appointed galley. The yacht also features a large deck area, perfect for socializing and enjoying the outdoors.

The Southern Wind 96/105 is a true testament to the company’s commitment to innovation and excellence. It is a yacht that combines luxury, performance, and comfort, making it an ideal choice for those who demand the best in their sailing experience. Whether you are a seasoned sailor or a beginner, the Southern Wind 96/105 is sure to impress and exceed your expectations.
